Personal Property Tax Relief in Distressed Communities (PA 328 of 1998)

Public Act 328 of 1998 allows distressed communities and all county seats to abate all new personal property taxes in certain geographic areas to spur economic development.

ELIGIBILITY

Cities, villages, and townships that contain distressed areas (as defined under the Michigan State Housing Development Authority Act), and all county seats (as defined under the Neighborhood Enterprise Zone Act) are eligible to participate. This criterion applies to the cities, villages, townships, and county seats listed on the back of this fact sheet.

Abatements include all millage, state and local. Locally approved applications are filed with the State Tax Commission (STC), which must approve or disapprove the local resolution within 60 days. The State Treasurer, with the written consent of the Michigan Economic Development Corporation, is required to provide advice to the STC as to whether the exemption is necessary to “reduce unemployment, promote economic growth, and increase capital investment.”

Eligible projects include manufacturing, mining, research and development, wholesale trade, and office operations. Retail businesses and casinos are not eligible.

New personal property is property not previously subject to property taxes in any other jurisdiction in this state. This includes personal property already in Michigan, but exempt for another reason (owned by a local unit of government). Personal property is property that wasn't previously subject to tax under the Property Tax Act. If there is any question as to whether the property is considered new, please contact the Department of Treasury at 517.373.3272.

TERMS OF ABATEMENT

The eligible local units may, by resolution, exempt new personal property in any of the following areas: an industrial development district (P.A. 198), a renaissance zone, an enterprise zone, a brownfield redevelopment zone, an empowerment zone, a tax increment financing district, a local development financing district, or a downtown development district.

The local community and the business negotiate the length of abatement for the new personal property tax, via adoption of a local resolution. The law does not contain a maximum or minimum number of years.

For more information, contact the Michigan Economic Development Corporation Customer Assistance at 517.373.9808.
